There is constant danger in an oily skin

If your skin has the habit of continually getting oily and shiny—
you cannot begin too soon to correct this condition.

A certain amount of oil in your skin is necessary to keep it
smooth and supple.

But too much oil not only spoils the attractiveness of any skin
by giving it an embarrassing shininess—it actually tends to pro-
mote an unhealthy condition of the skin itself. A skin that is
too oily is constantly liable to infection from dust and dirt, and
thus encourages the formation of blackheads, etc.

You can correct an oily skin by using each night the following
simple treatment:

WITH warm water work up a heavy lather of
Woodbury's Facial Soap in your hands.

Apply it to your face and rub it into the pores
thoroughly—always with an upward and outward
motion.

Rinse first with warm water, then with cold—the
colder the better.

If possible, rub your face for thirty seconds with a
piece of ice.

GET a cake of Woodbury's today, at any drug store or toilet
goods counter—give your skin its first treatment tonight. A 25-
cent cake of Woodbury's will last for a month or six weeks of
this treatment, and for general cleansing use. The Andrew
Jergens Co., Cincinnati, New York and Perth, Ontario
